Engineering meets governance: I co-developed a national bank's AI policy and rebuilt core applications schema-first on GitOps infrastructure. Track record of automating reporting and processes across banking, government, and eCommerce.

EXPERIENCE

Jul 2026 – Present

Applications & AI Specialist
Bank of the Cook Islands

- Co-developed and operationalised the board-approved AI Policy and data protection framework.
- Built **Tauturu**, an internal AI assistant powered by **Kite**, a governed knowledge platform, and **Peretā**, a permission-aware file search service.
- Presented agentic AI at the executive strategy day, demonstrating a Cook Islands legislation agent.
- Led adoption via responsible-use training and an agentic knowledge-capture pilot.

Aug 2025 – Present

System Analyst Programmer
Bank of the Cook Islands

- Delivered **Taka**, the bank's data & analytics platform (TypeScript/React/PostgreSQL); Employee of the Month, March 2026.
- Automated card-settlement reconciliation and reporting.
- Established DevSecOps & GitOps: Docker Swarm, Gitea CI/CD, SCA on SBOMs, Entra SSO.
- Project-managed multimillion-dollar payment partnerships; technical lead on core banking procurement.
- Reviewed cybersecurity controls and pen-test results for compliance.

Sep 2025 – Present

Enterprise Consultant
Manako Tika

- Built an automated market intelligence platform: web-scraping, lead generation, email outreach, analytics.
- Delivered the most comprehensive Cook Islands payments market study.

May 2023 – Sep 2024

Data Analyst
Ministry for the Environment

- Led two Toitū *carbonreduce* certification audits, reduced non-compliances **80% YoY**.
- Automated emissions reporting with Python & Power BI, lifting accuracy up to **30%**.
- Modelled travel trends and devised emissions budget of 126 work programmes for business planning.

Nov 2021 – Feb 2022

Web Developer
MedicAlert Foundation

- Built a membership portal in C# ASP.NET Razor.

Apr 2019 – Apr 2021

Web Developer
Heat Press Media

- Developed two WooCommerce sites generating **$300k/yr**.

SKILLS

AI
LLM APIs · MCP · RAG · agents · evals · prompt engineering · Claude Code · Codex

DATA
Python · SQL · PostgreSQL · Power BI

ENGINEERING
TypeScript · React · FastAPI · C# · OpenAPI

PLATFORM
Linux · Docker Swarm · GitOps · DevOps

GOVERNANCE
Policy · Procurement · Board Papers

EDUCATION

Computer Science
Victoria University of Wellington
2016 – 2019
Completed 170 points towards a Bachelor of Science.

R Shiny Masterclass
Epi-interactive
2024

Power BI Fundamentals
Lumify Work (Auldhouse)
2023

Diploma in Software Development
Whitireia Polytechnic
2014

RECOGNITION

Employee of the Month
Bank of the Cook Islands
March 2026

Data Protection Policy Submission
Cook Islands Parliament
2025

Highly Commended
NZ Amateur Photography Awards
2024

'Enterprise in Action' Scholarship
Massey University
2015
